TGfU SIG 40th Anniversary Webinar Series

“Commonalities and Differences among the Various GBA Approaches” Symposium

In this symposium, we would like to cover various GBA approaches associated with TGfU, including identifying their concrete forms, achievements and challenges, and provide attendees with an opportunity to think about the future implementation of each GBA in school education. We will be hearing from leading experts on each of the GBAs and then provide an open forum for discussion.

Dr. Steven Tan

National Institute of
Education, Nanyang
Technological
University, Singapore

**Games Concept
Approach**

Dr. Shane Pill

Flinders University,
Adelaide, Australia

Play with Purpose
