## **“Learner-oriented teaching and assessment in GBAs” Webinar Series**

This webinar series provides sport educators with a learner-centred instructional toolkit to empower children and young people in collaborative, independent learning of GBAs. This webinar brings together the various pedagogical dimensions inherent to the teaching-learning process of GBAs: the instructional system (teaching strategies), the social system (interactional climate), the task system (learning tasks and activities), and the assessment (for learning) system. It also shows how to effectively involve learners as active agents in promoting more democratic learning environments and equitable interactions between sportspersons.
